## Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-14 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Heidt et al. (USP 5,895,628) or Goldbecker et al. (USP 5,601,650).

Heidt et al. teach an apparatus(1) for treating/staining cytological or histological specimens on a slide. Treatment stations(6a-j) receive the treatment solutions and are covered by covers(7c-j). Specimen holder baskets(13a,13b) move the sample in an X-Y orientation. The claimed X-Y stage has been read on the taught holder basket(13a,13b). The claimed receptacles have been read on the taught treatment stations. The contamination shielding panel has been read on the taught covers(7a-j).

Goldbecker et al. teach an apparatus for staining specimens on slides that are automatically moved to the appropriate reagent/ stain. The apparatus moves the slides in an X-Y orientation to the appropriate processing station(16) location. There are a plurality of stations(16) as seen in figure 1. Column 3 lines 44+ teach covering the transport route beneath the slide to prevent contamination of other slides and reagents. The claimed "X-Y stage" has been read on the taught means for moving the slides. The claimed "first and second receptacles" have been read on the taught processing stations(16). The claimed "contamination shielding panel" has been read on the taught covering.

## Response to Arguments

**Art Unit: 1743** 

Applicant's arguments with respect to claims 1-14 have been considered but are most in view of the new ground(s) of rejection.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lyle A. Alexander whose telephone number is 571-272.

The examiner can normally be reached on Monday, Wednesday and Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jill Warden can be reached on 571-272-1267. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
